INTRODUCTION

1.1 AIIMS, KALYANI

An Act of Parliament established the All India Institute of Medical Sciences (AIIMS, Kalyani), as an autonomous institution of national importance and defined its objectives and functions in the year 2018. By virtue of this Act, the Institute grants its own medical degrees and other academic distinctions. The degrees granted by the Institute under the All India Institute of Medical Sciences Act are recognized medical qualifications for the purpose of the Indian Medical Council Act and notwithstanding anything contained therein, are deemed to be included in the first schedule of that Act, entitling the holders to the same privileges as those attached to the equivalent awards from the recognized Universities of India.

AIMS & OBJECTIVES

2.1 AIIMS, KALYANI

In the field of Under graduate education, the most essential function of the Institute is to provide opportunities for training teachers for medical colleges in the country in an atmosphere of research and enquiry. The under graduate students are exposed to the newer methods of teaching and given opportunities to actively participate in teaching exercises. The other important objectives of the Institute are to bring together in one place educational facilities of the highest order for the training of personnel in all the important branches of health activity and to attain self-sufficiency in under graduate & postgraduate medical education. The educational principles and practices being adopted are those which are best suited to the needs of the nation.

Undergraduate Courses:

1. B.SC. COURSE IN MEDICAL LABORATORY TECHNOLOGY

The course has been planned to upgrade the standard for the Medical Laboratory Technologists. The students who have passed 10+2 schooling or equivalent to that or who are already working in the OT are planned to receive training.

The proposed training in this field will enable them to learn systematically the theoretical and practical aspects of medical laboratory techniques and enable us to select trained technicians in this field. It has become essential as very highly technology-oriented equipment of different types like the automated clinical chemistry and hormone analyzers, cell counters, histopathology, transfusion medicine, molecular diagnostics for infectious diseases, oncology and rare diseases.

SCOPE:

- i. The Course prepares the medical laboratory technologist to work as a competent and reliable member of the health care team who can work harmoniously with doctors, nursing and other health care support staff for effective delivery of patient care.
- ii. Training also focuses on the knowledge and skills of monitoring quality control policy and procedures in the Medical Laboratory.
- iii. This programme prepares individuals to assist Clinical Biochemists, Microbiologists, Pathologists and Transfusion Medicine Clinicians in generating patient results of the highest quality standards.
- iv. The program is intended to equip the candidates in modern day Good Laboratory Practices including patient data collection and adherence to quality and safety check lists, communication and soft skills, ethics, safe transfer of patient biospecimens, and minimization of pre and post-analytical errors.
- v. Course will also prepare candidate in the safe use and disposal of sharps, universal precautions, biomedical waste management, inventory management and administrative tasks.

2. B.SC. COURSE IN OPERATION THEATRE TECHNOLOGY

The course has been planned to upgrade the standard for the hospital operating theatre assistant. The students who have passed 10+2 schooling or equivalent to that or who are already working in the OT are planned to receive training. Very few Government hospitals in our country have got the facility for this course

The proposed training in this field will enable them to learn systematically the theoretical and practical aspects of operating room techniques and enable us to select trained technicians in this field. It has become essential as very highly technology-oriented equipment of different types like anaesthesia machines & monitors, pain management devices, and other surgical equipment are commonly used in the modern operation theatre and ICU.

SCOPE:

- vi. The Course prepares the operating theatre technologist to work as a competent and reliable member of the health care team who can work harmoniously with doctors, nursing and other health care support staff for effective delivery of patient care.
- vii. Training also focuses on the knowledge and skills of monitoring infection control policy and procedures in the operating theatre.
- viii. This programme prepares individuals to assist anaesthesiologists, and surgeons in developing and implementing patient anaesthesia care plans, including preoperative, operation theatre, recovery room,

post-operative care, intensive care procedures and pain interventions procedures.

- ix. The program is intended to equip the candidates in modern day operation room technology including patient data collection and adherence to safety check lists, communication and soft skills, ethics, safe transfer of patient, in and out of operation theatre.
- x. The candidate will be trained for preoperative management includes patient data collection, airway management, assisting the administration and monitoring of regional and peripheral nerve blockades, support therapy, adjusting anaesthetic levels during surgery, inter-operative monitoring, postoperative procedures, pain clinics and patient education.
- xi. Course will also prepare candidate to provide the anaesthesia support services & surgical care basics like manifold system, central sterilization system, installation, maintenance, basic care and troubleshooting of various electrosurgical devices, laparoscopic, endoscopic and robotic instruments, basic asepsis, wound care and dressing, common surgical procedures like catheterization, chest and abdominal drainage, basic knowledge of common surgical instruments and suture materials, safe use and disposal of sharps, universal precautions, biomedical waste management and administrative tasks.
