### Instructions for Radiological investigation billing:

1.Code RAD004 to RAD011 are for **X-Ray** for which **each additional view** will have separate billing with same code

Example: X Ray chest AP and Lateral will be  $RAD005 + RAD005 = 50 + 50 = 100$

2.For **X Ray Extremity additional part/view**, Code RAD041 to RAD045 are added for ease of billing if 2 to 6 part/view of extremity to be billed in a single bill.

3. For **each CT additional part** like Head or Neck or PNS, additional billing will be done with same code i.e.RAD030

4.For **each CT additional part** like Chest or Abdomen, additional billing will be done with same code i.e. RAD028

Example: if CT chest with Abdomen, then billing is  $RAD028 + RAD028 = 750 + 750 = 1500$

5.For each **MRI additional part**, separate billing will be done with code RAD035

Example: If MRI Brain with spine then billing is  $RAD034 + RAD035 = 3000 + 1500 = 4500$

6.Billing to be done on day of appointment only

7.Unnecessary additional or duplicate billing by mistake to be cross checked and avoided
